WINDOWS YOU CAN TRUST

Cascade Windows puts life in the best light. We have built our reputation on superior performance, style and value.

Since 1989, homeowners and builders have turned to Cascade Windows for the best design, energy efficient and cost effective windows available.

Innovation is integral to our success. The window experts at Cascade carefully craft each product with specific features that result in beauty you can see, and year-round comfort you can feel.

Choose from one of our distinctive product lines, or even combine styles and features to achieve the perfect look and structural integrity for your specific new construction or remodeling project.

Let Cascade Windows frame your life's moments affordably, with beauty and technical innovation.

DESIGNED TO PERFECTION

Our engineers keep two goals in mind at all times, and excel at both: Developing an intelligently designed product, and making sure it brings exceptional value to our customers.

MAINFRAME

Our window frame profiles feature fusion-welded corners and a precision mitred heavy duty external glazing bead, for a distinctive appearance. This gives you beautiful shadow lines and improved window stability. Cascade Windows offers 2 ¾" or 3 ¼" frame depths for replacement windows.

CELCON® ROLLERS

Unightly frame markings are a thing of the past. Enjoy years of opening and closing your slider windows blemish-free thanks to our unique Celcon rollers mounted on stainless steel axles.

REINFORCED MEETING RAILS

The meeting rails on our single-hung and slider windows are reinforced with steel. This steel reinforcement provides rigidity to enhance structural integrity and forms a secure and stable platform for locking hardware.

COMBINATION UNITS

Cascade offers a wide selection of window combination units, bringing design flexibility, functionality and creativity to any window project.

LIFETIME WARRANTY

Rest assured knowing your windows are designed and manufactured to last, as long as you own your home. This commitment is backed by Cascade Windows' Lifetime Warranty – a warranty that includes product and labor protection as well as limited transferability. For details, please see your Cascade Windows representative.

EMPIRE SERIES

HIGH STYLE, HIGH VALUE

The Empire Series is designed to give homeowners and building professionals a remarkable combination of sleek looks, reliable performance and serious value.

Intelligent design and energy efficiency results in a smart and affordable window with a maximized viewing area. The Empire Series offers great flexibility in design and options while maintaining excellent structural and thermal qualities.

DISTINCTIVE LOOKS

The Empire Series offers a clean, contemporary window design with a variety of grid options and configurations.

CLEAN, SOLID LINES

Empire Series windows have no unsightly accessory grooves, offering clean lines and maximum viewing area.

GLAZING BEAD

The Extruded Square-edge glazing bead comes standard with the Series and adds a distinctive look only available in the Empire Series.

COLOR MATCHED HARDWARE

All operable Empire Series windows feature color-matched hardware to maintain a unified appearance. The Empire Series comes standard with the 2-stage keeper Lock for added air ventilation while staying secure.

INCREASED ENERGY EFFICIENCY

Energy costs are soaring. Concern for the environment is growing. Together they make energy efficient products essential and many Cascade' windows meet Energy Star® guidelines. We offer insulated glass panels with high performance, heat reflective coatings, warm edge spacers and dual weather stripping. Optimum efficiency is achieved by combining our vinyl mainframes with our Ec and Ec+ Low-E glass and our warm edge spacer technology. These features further reduce energy costs while increasing the comfort of your home.

VINYL

Cascade vinyl windows ensure consistency of quality in materials, lifespan and low maintenance. Our vinyl windows never need painting, saving you time and money. You will also appreciate a reduction in energy costs due to the energy saving performance of Cascade windows.

DUAL PANE GLASS

While a single pane was once standard, our dual pane windows keep you comfortably insulated from even the worst elements. As quiet as they are energy efficient, our windows are sealed with formulated butylene sealant, ensuring long-lasting performance.

LOW-E GLASS

Had it with costly air conditioning and heating bills? Our Ec and Ec+ windows deliver superior year-round performance, coated to keep heat in during the winter and out in the summer. Plus, the high performance glass reduces the sun's damaging ultraviolet rays which can fade your carpets, curtains and furniture.

WARM EDGE SPACER

Cascade's Warm Edge Spacer System conducts less heat through the window. This technology can significantly improve a home's overall energy efficiency and help reduce condensation on the glass.

CUSTOMIZE WITH CARE

From Colonial to Craftsman, Post-Modern to French Country, Cascade Windows offers style combinations and grid patterns just right for any home. Our versatile product lines allow you to combine styles and features to fit all your window needs.

Grid selection can greatly enhance the appearance of your new windows. At Cascade Windows, we offer an almost unlimited variety of internal grid styles and options. Choose from pencil, slimline or euro varieties. Grid colors available include white, almond, clay, bronze, brass, silver and pewter. The following page shows several available patterns. Of course, our technical services department is always ready to help you select the perfect window design for your home. Simply contact your Cascade Windows representative for assistance.
